

Introduction under development

We would introduce the products under development.

Please email us if you are interested or have any requests.

Contact us
(Products)

We will provide information such as target specifications.

Product (Voltage, Capacitance)	Target Market	Feature	Situation
FPCT 700VDC, 15~30 μ F 	Electric compressor High Temp.	High Temperature ~+125°C	New Respond to your requests Sample support
FPCL 1200VDC, 1~25 μ F 	DCDC (BEV) OBC (BEV) 800V system	Suitable for high voltage battery system	Under Development Scheduled for release in spring 2024
SMD 300VDC, 0.1~0.47 μ F 	All parts surface mounting	Reflow soldering	Under Development Scheduled for release in spring 2024
